BRILLIANT BRIGHT WHITES

BY LAURA NESS

Wine, we have learned during this pandemic, is indeed essential. And it is, thankfully, in good supply. While tasting rooms may be re-opened in some fashion by the time you read this, the best part of wine is that it can be shipped, bringing a whiff of distant lands and vineyards right to your doorstep. Haven't been to Napa in ages? Let us happily bring it to you, in the form of several amazing Sauvignon Blancs of various styles. Never been to Oregon? We found two dazzling examples of why this state is growing faster than any other in terms of wine production and popularity. Here are 10 remarkably bright, cheerful and mouthwatering beverages that will make the warm days of summer that much more enjoyable. And they'll happily ship while you SIP.
